

<b>Lurasidone Efficacy Results</b>			
<b>Dose</b>	<b>NNT</b>	<b>Responders %</b>	<b>Placebo</b>
40 mg	3 to 13	46% to 55%	22% to 38%
80 mg	6 to 8	44% to 52%	27% to 38%
120 mg	4 to 12	47% to 50%	22% to 38%

NNT (number needed to treat) refers to the number of patients you would need to treat with lurasidone to see one extra response that you would not see with placebo. Single-digit NNTs are considered to be clinically significant.
